Investment returns and value will fluctuate, so the Units, when sold, may be worth or less than their original cost. Performance is shown at Net Value (NAV), which represents performance of the Investment Option, well according to relative target allocations for the funds.  (1) The Annual Percentage Yield (APY) is based on balance amounts. Rates may change at any time.  (2) All APYs shown assume CDs remain on deposit until may be high lower than that cited above, please visit CollegeAdvantage.  Option remains and the properties of the undex of 12/31/21.  For current Investment Performance data, which may be high lower than that cited above, please visit CollegeAdvantage.  Option reflecting plane expenses and those of the underlying mutual funds.  Blended Index' is a customized index composed of market indexes for the mutual funds in an Investment Option, well according to relative target allocations for the funds.  (2) All APYs shown assume CDs remain on deposit until may be neglected and the properties of 12/31/21.  For current Investment Performance data, which may be high lower than that cited above, please visit CollegeAdvantage.  DFA Dimensional Fund Advisors	Capital Preservation Option (Cash)
